How do artists visualize their ideas? How do they then turn it into a piece of artwork? This is the essence of visual art: translating an abstract idea into a tangible form. This series explores how to come up with an idea for an artwork, translate your idea into a visual image, and create it in tangible--material--form.

elements of art to create an effect and to help convey the artist's intent. The principles of art and design are balance, contrast, emphasis, movement, pattern, rhythm, and unity/variety. The use of these principles can help determine whether a painting is successful, and whether or not the painting is finished.
