### Good Documentation Practices (GDocP) and GDP Training ...

Good documentation practice is a term in the pharmaceutical and medical device industries to describe standards by which documents are created and maintained. While some GDP / GDocP standards are codified by various competent authorities, others are not but are considered cGMP. Some competent authorities release or adopt guidelines, and they may include non-codified GDP / GDocP expectations. While not law, authorities will inspect against these guidelines and cGMP expectations in addition to the

### Good documentation practice - Wikipedia

Good Documentation Practice (GDocP) are the standards in the regulated industries by which documents are created and maintained. Because GDocP is aligned with GxP/GMP, documentation is a critical tool for ensuring GxP/GMP compliance. Inadvertent use of out-of-date documents or not approved documents can have significant negative consequences on quality, costs, customer satisfaction, and can even cause death.
