Gerber, International Economics, 5th Edition | Pearson

This is a very low-level introductory textbook on economics. It assumes no prior background and is written to be accessible to a general audience. Most college students should have no trouble reading and understanding this book. The coverage of topics is pretty broad, and the book covers both macro- and micro-economics.

Economics Fifth Edition - Amazon.com

Appleyard and Field's International Economics provides a balanced treatment of international economics—international trade theory and policy and international monetary theory and policy. Comprehensive and clear, International Economics helps students move beyond recognition toward an understanding of current and future international events through real world examples featured throughout the text.
