The LNS Swiss safety connection eliminates the unsupported area between the bar feed and machine tool to provide greater safety and better bar stock support. It consists of a series of telescoping tubes that extend in sections to maintain a safe and continuous connection between the Hydrobar Express 332 S2 and the machine sliding headstock.

HYDROBAR EXPRESS 332 S2 BARFEED - LNS Group

A manual barfeeder for small to medium production runs, Super Hydrobar HS has a diameter range suited for camshaft controlled screw machines and Swiss-style CNC machines. Hydrodynamic support in completely enclosed guide tubes provides the high performance and reliability you expect from LNS.

Super Hydrobar HS » LNS Group

In the 1970's, LNS addressed these and other bar loading shortcomings by developing the first hydraulic bar feeders that reduced friction, noise and vibration. In the years since, bar feeding has evolved into user-friendly, ergonomic and highly efficient devices that provide a number of significant advantages. More..
